

Shivam KumarSinha
Analyst Trainee
Total Exp – 2 months

Currently working as an Analyst Trainee at Cognizant in the Multicloud Platform domain. I bring strong programming skills in Python, Java, C++, and C, along with hands-on experience in Android development. My key projects include GeoPulse (attendance app with Firebase), Geo Silent (GPS-based silencer), and Soil Guard (IoT-based soil monitoring). Certified in Java, Python, Android, and AI with IoT, I'm passionate about solving real-world problems using data structures, algorithms, and cloud technologies.

Work Experience

Cognizant Experience

CHN CAT PT 2 Months (Sep 2025 - Nov 2025)

Project Description

As an Analyst Trainee at Cognizant in the Multicloud Platform domain, I'm undergoing hands-on training across key IT modules including Windows Server 2022, AD+DNS, VMware, Hyper-V, Linux, Gen AI, Copilot, Networking, Monitoring Tools (Zenoss, SolarWinds), ITIL, SNOW, and scripting with PowerShell/Python. The program includes evaluations, capstone labs, and business mentoring.

Roles & Responsibilities

As an Analyst Trainee in the Multicloud Platform at Cognizant, I am responsible for gaining hands-on experience across cloud technologies and IT infrastructure. My training covers Windows Server 2022, Active Directory, DNS, Linux, VMware, Hyper-V, and networking essentials. I work with monitoring tools like Zenoss, SolarWinds, and SCCM, and explore scripting with PowerShell and Python. I also engage in modules on Gen AI, Copilot, Responsible AI, ITIL processes, and ServiceNow. Through lab work, capstone projects, and evaluations, I am building a strong foundation in cloud operations, automation, and enterprise IT service management.

Career Highlights
